DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Species I (claims 1-7) in the reply filed on August 8, 2007 is acknowledged. The traversal is on the ground(s) that (1) "the election of species requirement is improper because the 'species' are not mutually exclusive" and that (2) "the subject matter of claims 1-7 and 14-20 is sufficiently related that a thorough search for the subject matter of one group of claims would encompass a search for the subject matter of the remaining group of claims." The examiner has considered applicant's arguments and has withdrawn the restriction requirement set forth in the Office Action mailed July 11, 2007. Claims 1-7 and 14-20 are pending.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In paragraph 0034 of the Specification, replace "Fig. 10 shows" with "Figs. 10A-10F show".

Allowable Subject Matter

3. Claims 1-7 and 14-20 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art does not teach and/or suggest "a stage having a mount surface to hold an exposure substrate having a photosensitive film with a surface facing a hologram recording surface of a hologram mask" and "a range finding optical system that adjust a distance between the hologram recording surface and the photosensitive film surface" in combination with the other limitations set forth in claim 1.

Regarding independent claim 14, the prior art does not teach and/or suggest "a film thickness measuring optical system that measures the thickness of the photosensitive film" in combination with the other limitations set forth in claim 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
